

Care Navigators

The main ways to pay for care:

- NHS – Health Funding
- Social Care
- Benefits
- Property – selling, renting, downsizing, moving, sharing
- Deferred Payment Agreement
- Investments
- Income and savings
- Third Party payments
- Equity Release/Care Fee Annuity

If you would like independent, expert advice on paying for care and benefits please get in touch.

Paying For Care

Often care decisions are made with little time, experience or knowledge of a complex care and benefit 'system'.

Some common questions are: How do I find good care? Can I keep the house? Can I give my savings to my children? Should I be paying? Is there any help? What if my money runs out?

It is important that you get the right advice before making life changing decisions.

Helping you through the Care Maze

Care Navigators

If you are not eligible for FREE NHS Continuing Healthcare funding, then you may have to pay for your own care or rely on help from Adult Social Care.

If you need support from the Local Authority they will assess your care and support needs and a financial means test will work out how much you have to pay towards your care and support.

You don't know what you don't know!

It's easy to be guided by others, but when you are choosing one of the most expensive services of your lifetime expert advice can help save you time and money.

One in Four of us aged 65 are likely to need some care and support. Care fees will vary depending on the need and location but regardless of whether at home or in a Care or Nursing Home making sure you have considered how this will be paid for in the longer term will help you stay in control.

Getting help to arrange the right care can save time and money.

Don't forget to claim CARE BENEFITS!

Nearly 80% of the people we speak to have unclaimed benefits. Making sure that you are receiving the right benefits and assessments can lead to additional money and we can help you to claim it.
